A GREAT DIVORCE CASE.

There was a man called Bronckhorst a three cornered, middle aged man in the army—gray as a badger, and some tecple said with a touch of country blood in him. That, however, cannot be proved. Mrs. Bronckhorst was not exactly young, though fifteen years young-er than her husband. She was a large, pale, quiet woman, with heavy eyelids over weak eyes, and hair that turned ed or yellow as the lights fell on it.

Bronekhorst was not nice in any way. He had no respect for the pretty public and private lies that make life a little less nasty than it is. His manner toward his wife was coarse. There are many things, including actual assault with the clinched fist, that a wife will endure; but seldom a wife can bear, as Mrs. Bronckhorst bore, with a long course of brutal, hard chaff, making her small fits of gayety, her dresses, her queer little attempts to make herself at-tractive to her bushand when she knows that she is not what she has been, and, worst of all, the love that she spends on her children. That particular sort of heavy handed jest was specially dear to Brenckherst. I suppo • that he had first dipped into it, meaning no harm, in the honeymoon, when folk find their ordi-nary stock of endearments run short, and so go to the other extreme to express their feelings. A similar impulse makes a man say, "Hutt, you old beast!" when a favorite horse nuzzles his coat front.

Unluckfly, when the reaction of marriage sets in, the form of speech remains, and, the tenderness having died out, hurts the wife more than she cares to ray. But Mrs. Bronckhorst was devoted to her "Teddy," as she called him. Perhaps that was why he objected to her. Perhaps—this is only a theory to account for his infamous behavior later on-he gave away to the queer, savage feeling that sometimes takes by the throat a husband twenty years married when he sees across the table the same

Then the station invited Mrs. Bronckhorst everywhere until Bronckhorst was fit to appear in public, when he went home and took his wife with him. According to the latest advices her Teddy did "come ba k to her" and they are moderately happy, though of course he can never forgive her the thrashing that she was the indirect means of getting for him.

What Biel wants to know is: "Why didn't I press home the charge against the Bronckhorst brute and have him run in?"

What Mrs. Strickland wants to know is: "How did my husband bring such a lovely, lovely Waler from your station; I know all his maney affairs, and I'm certain he didn't buy it."

What I want to know is: "How do women like Mrs. Bronckhorst come to marry men like Bronckhorst?"
